

On November 27th and 28th, 2015 the Versailles Police Department took reports of tires being slashed throughout the village. In all, a total of 11 vehicles were reported damaged, 14 tires were destroyed, and an estimated total damage amount of \$2028. Although we are not exactly sure where or when they started the suspect(s) were observed entering the south most entrance to the Board of Education and slashing tires at approximately 7:09 PM on November 27th. The car appears to be a silver 4 door with brighter "LED/White style" head lights.

Please contact us with any information.
